PROFESSIONAL SUMMARY

Frontend Web Developer and BS Computer Science graduate with hands-on experience building responsive and interactive web applications using **React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS**. Experienced in working with REST APIs, dynamic routing, state management, TanStack Query, Axios, and modern React hooks. Comfortable converting designs into reusable components, managing client and server data, and deploying applications using GitHub and Vercel.

TECHNICAL SKILLS

Frontend:

React.js, Next.js, JavaScript ES6+, TypeScript, HTML5, CSS3, Tailwind CSS

Development Tools:

Git, GitHub, VS Code, npm, Chrome DevTools, Vercel

Additional Concepts:

Responsive Web Design, Component-Based Architecture, Array Methods, Form Handling, Error Handling, Loading States, Dynamic Data Rendering

PROJECTS

Real Estate Website

Developed a modern and responsive real estate website using **Next.js and Tailwind CSS** with reusable UI components and a clean property-focused interface.

- Built responsive layouts for desktop and mobile devices
- Created reusable React/Next.js components
- Implemented modern navigation and structured page layouts
- Used Tailwind CSS for responsive styling
- Deployed the application on Vercel

Technologies: Next.js, React.js, TypeScript, Tailwind CSS, Vercel

Live Demo:

<https://real-state-web-puce.vercel.app/>

Amazon Clone

Developed an Amazon-inspired e-commerce frontend using **Next.js, TypeScript and Tailwind CSS**.

- Created reusable product and UI components
- Implemented product display and cart functionality
- Used Zustand for cart state management
- Added duplicate-item checking and item removal functionality
- Built responsive layouts inspired by modern e-commerce websites
- Used Next.js routing for application navigation
- Deployed project using GitHub and Vercel

Technologies: Next.js, React.js, TypeScript, Tailwind CSS, Zustand, Git, Vercel

Live Demo:

<https://amazon-xi-one.vercel.app/>

Personal Portfolio Website

Designed and developed a responsive developer portfolio to showcase projects, technical skills and contact information.

- Developed reusable project cards
- Added live demo and GitHub links for projects
- Built responsive sections for projects, skills and contact information
- Used structured project data for dynamically rendering projects
- Integrated external links and email contact functionality
- Deployed the website online

Technologies: Next.js, React.js, TypeScript, Tailwind CSS, GitHub, Vercel

API & React Query Practice Application

Built API-driven interfaces to strengthen understanding of modern server-state management.

- Integrated REST APIs using Axios and Fetch API
- Used TanStack Query for API data fetching and caching
- Implemented query keys and dynamic query keys
- Handled loading and error states
- Worked with dynamic routes for individual item detail pages
- Practiced caching, refetching, stale data and polling concepts

Technologies: React.js, Next.js, TanStack Query, Axios, REST API, TypeScript

EDUCATION

Bachelor of Science in Computer Science — BSCS

Degree: BS Computer Science

University: GCUF

Graduation Year: 2025

CORE STRENGTHS

- Responsive frontend development
 - React component development
 - API integration
 - Modern JavaScript
 - React state management
 - Dynamic routing
 - Debugging and problem solving
 - Git and GitHub workflow
 - Deployment with Vercel
 - Continuous learning of modern frontend technologies
-

CURRENTLY LEARNING

Expanding frontend development skills with advanced **React, Next.js, TanStack Query, API integration, state management and full-stack application development.**
